Updates for the week of August 24:

- After a surge of cases in July, Racine County's case rate has fallen this month, though the county remains in the "high risk" category and testing has declined due to national testing supply shortages. It's imperative that residents continue to wear face coverings outside their homes, maintain social distancing, not hold or attend large gatherings, stay home if sick, and practice good hygiene.
- Racine County will distribute COVID-19 care packages from 10 a.m. to 1 p.m. Wednesday, Aug. 26, at the Racine County Service Center in Burlington, 1072 Milwaukee Ave. Residents in need are invited to pick up a free care package filled with food, facemasks, and other essential items to help during the COVID-19 pandemic. For more information, [click here](#).
- Free facemasks are also still available at City of Racine fire stations while supplies last.
- The Wisconsin Department of Health Services has a map of community testing sites in Wisconsin that can be found [here](#). Health care providers including Ascension, Froedtert and Aurora also continue to provide COVID-19 tests by appointment. For more information:
